# ELECTRICAL ENGINEERING

- + . FINAL YEAR PROJECT

- SAFETY LECTURE

Tom Rabbitt  
Engineering Lab Manager

# Discussion Point:

- Swipe Card Access
- Industry Documentation
- FYP Risk Assessments
- Questions

# Swipe Card Access

- All requests go through your academic supervisor
- You need to have completed both Canvas quizzes:
  - EE Lab Induction – Minimum entry level quiz
  - EE General Access – Give us confidence you can work safely, and
  - Submitted your risk assessment
- If you need any help with the quizzes, just ask.

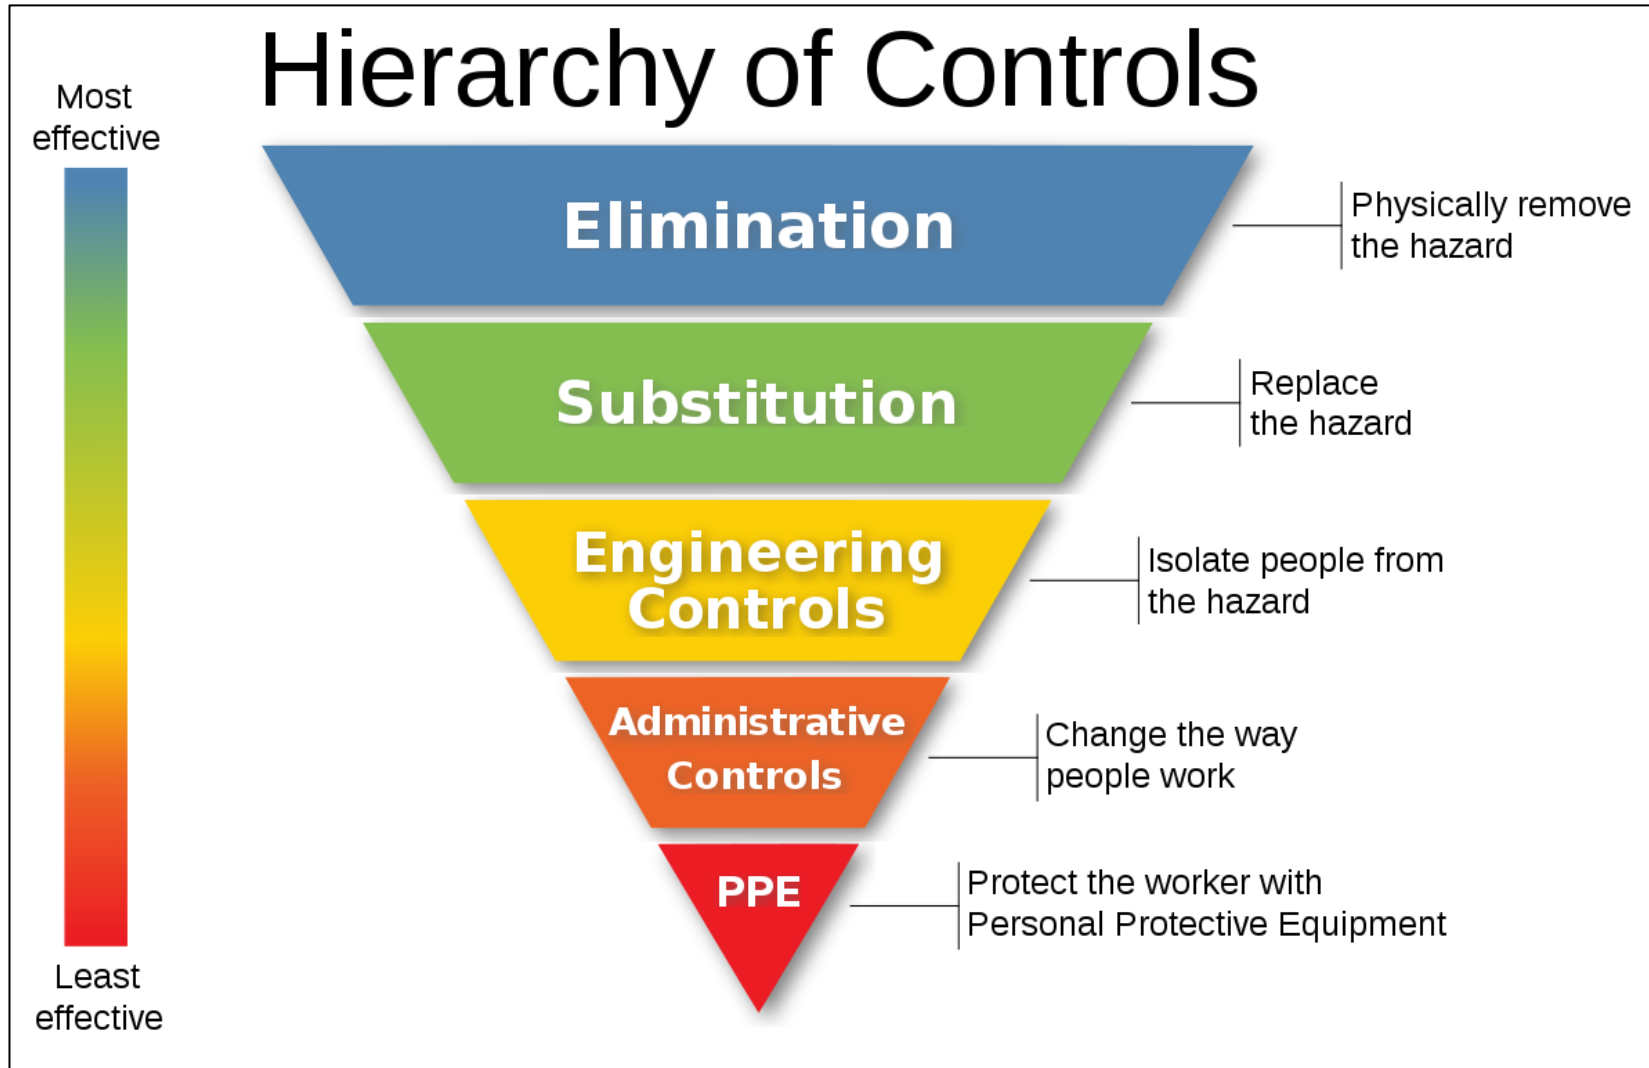

# Risk Assessments

- Definitions

- Hazard: “anything that has the potential to harm the health or safety of a person or plant”
- Risk: “the chance of a hazard occurring”
- Risk Assessment: “a systematic process of evaluating the potential risks that may be involved in a particular activity”

- Show Example Risk Assessment

# Risk Assessments (cont.)

# Risk Assessment Submission

- Complete a Risk Assessment for your project
- Meet with your academic supervisor and review
- Submit Risk Assessment
- \*If you are completing your FYP at an industrial sponsor, they might want you to complete other documents

# Questions:
